QUALITY POLICY STATEMENT

It is our policy to continually pursue a professional, value added concept and maintain efficient and effective operational control within the business.

B13 Technology strives to meet our customer needs and expectations, establishing a good reputation for responsible practices. Our company delivers the highest standards of customer excellence and recognises the importance of meeting statutory regulatory requirements.

Quality is essential throughout all of our processes and, dependent on the project, we believe it is essential that we consistently demonstrate flexibility and scalability. We are committed to achieving the highest quality standards expected from our customers. This will be achieved by developing positive attitudes towards each project and, through our commitment to the continuous improvement and development of our quality system, the maintenance of effective quality management.

We believe that the key elements that derive from this policy are essential in achieving our performance objectives. These include delivering the best quality service tailored to the client's needs and finishing with a final product that is easy to use and even easier to maintain.

B13 Technology is committed to this policy and is certain it will lead to increased standards and accomplishments within the business.

All of our staff have been made aware of their responsibilities and are committed to its future success.
